*North Okaloosa Medical Center is directly or indirectly owned by a partnership that proudly includes physician owners, including certain members of the hospital's medical staff.*

# CARDIAC SERVICES

When you're looking for convenient, comprehensive Cardiac Services, look to North Okaloosa Medical Center.

A healthy heart lifestyle is the best way to prevent cardiovascular disease. At North Okaloosa Medical Center, Cardiac Services include programs to help you not only achieve a hearthealthy lifestyle, but also to receive diagnosis, treatment and rehabilitation before, during and after a cardiac event.

North Okaloosa Medical Center's Cardiac Services are found throughout the facility. For patients arriving through the Emergency Room, 24-hour physician coverage and registered nurses certified in Advanced Cardiac Life Support are prepared to treat cardiac symptoms. For inpatients, the Intensive Care Unit and Progressive Care Unit utilize a centralized monitoring system that provides nurses with continuous observation of a patient's heart rhythm.

The Heart & Vascular Center is located on the first floor of North Okaloosa Medical Center. Under the medical direction of a board-certified cardiologist, specially trained nurses and technologists work hand-in-hand helping patients and their families remain comfortable, safe and informed during cardiac procedures. North Okaloosa Medical Center offers the following services to cardiac patients:

- Critical Care
  - 24-Hour Emergency Care
  - Intensive Care Unit
  - Progressive Care Unit
- Diagnostic Care
  - Cardiac Catheterization
  - Vascular Ultrasonography
  - Electrocardiography (EKG)
  - Echocardiography
